Chief Copeland: Edwards St. the property is owned by the Village and is staked. Need to check on it. Chapman Rd. Property is possibility, but the owner is asking for \$8000 for the property. The Der Dutchman has a slab and needs to have it removed, now owned by Harvest Baptist Church. Do we want to invest more into Bicentennial Park? Green space is required in any development so if the property across from Preston Dr. Sells it will be required to have green space.

Trip around the parks: The land at Chapman was quite small and probably not big enough for a park. The land on Edwards would be big enough to put a few parking spaces, playground and a couple of picnic tables. It is close to several kids but there is not a park close by, so it is in a good location. The land at the end of Preston is for sale but the owner is not wanting to break off an acre. There is a piece of property undeveloped on Beaumont Ct in the Thatcher Hill development that is a possibility and another property across from the Fire Station.

November 21 @ 6pm for the next meeting.

Adjourn at 6:57 pm. Motioned Chris Colvin. 2nd Troy Lauffer
